

Call for Participation

College and University Section of NLA
2010 Spring Meeting

Theme: The Library of 2morro.0

Date: May 14, 2010

Location: University of Nebraska-Omaha, Omaha, NE

Librarians and information professionals across Nebraska are invited to submit program proposals for the upcoming spring meeting of the NLA College and University Section. It has been several years since the advent of Web 2.0. As early adopters of technological innovations, librarians have remained at the forefront in incorporating Web 2.0 utilities into the services they provide. In essence, they truly embody the dynamic and experimental spirit of Web 2.0. We all know, however, that technological change is imminent. The purpose of this conference is to explore what lies ahead in library and information technology. Presentations can either focus on innovative practices or theoretical discussions and should be approximately 50 minutes in length. We will also feature a Lightning Round consisting of several 15 minute presentations.

The Library of 2morro.0

Deadline for Submissions

March 15, 2010

Submit your proposals as a **WORD document** using the format provided below in an e-mail attachment to:

Rachel Erb

rerb@unomaha.edu

402 554 - 4905 if you have any questions regarding your submission
